

RISK TOLERANCE QUESTIONNAIRE-INDIVIDUALS

efghermesone.com

### DETERMINING RISK TOLERANCE

One of the important steps in formulating an investment plan is to identify your risk tolerance as an investor. It can depend on the goals you are investing toward, as well as your current age and personality. The less risk averse you are; the more your potential gain as well as your potential loss.OLT Risk Management has developed this questionnaire with the idea of gauging your risk appetite that conforms to your risk tolerance and expectations. Your investment style can range from conservative to aggressive, with each style having a specific risk tolerance. The purpose of this questionnaire is to help both of us to discover your risk tolerance and what are your investment objectives and the suitable instruments to achieve these goals. To make sure you are completely satisfied, we would therefore like to ask you for your kind cooperation in filling the questionnaire by yourself. We all know that the values of investments on capital markets fluctuate. This fluctuation (known as volatility) is influenced by market developments, economic factors, the behavior of other investors, as well as by the type of securities. It is very important for you as an investor or trader to understand the instruments you are trading as some of them can result in financial ruin In the questionnaire there are several questions related to your investment knowledge, experience, financial position, investment objectives, and your attitude to investment risk. Based on your answers, we will determine your investment profile reflecting what type of investor or trader you are. The questionnaire will also show whether you have the knowledge and experience needed to assess the risks of various types of financial products. By obtaining and subsequently evaluating the investment questionnaire's information, we also meet our statutory obligation in classifying our clients. The information helps us act in your best interest. For example, in practice this means that we will evaluate the appropriateness of transactions involving investment instrum
